Crash Internship Description

Position: Crash Intern

Reports to Marketing Director.

Position Summary:

Explore various tech careers through projects, meetings, etc. dependent on company's needs and intern's interests.

Job Description:

Crash is a tech startup building tools & community for ambitious job seekers everywhere. (Find us on Twitter, LinkedIn, and Crunchbase.) We originally were founded within Praxis, and then spun out into our own company. Our mission is to help people discover and do what makes them come alive, and it is our North Star every day at work.

"Work" isn't what you might expect — we're a fully remote team (CEO in South Carolina, and others currently in Colorado, Arizona, Georgia, and Louisiana.) You don't "punch in" and you don't need to request time off or vacation days — we operate on mutual trust and maturity. When you need time off, take it. When you are sick, heal. Crash (and you!) will be better off when you're back feeling 100% recharged and ready to keep building the best job-hunting experience in the universe.

If you are:
- Legally old enough to work in your state
- Hungry to break into the world of tech & startups
- Eager to get your hands dirty on lots of different kinds of work (marketing, customer support, etc.)
- Willing and able to work from home without needing day-to-day supervision (aka, you're an adult)
- Excited to help millions of job seekers discover and do work that makes them come alive

Then you'll probably love interning at Crash!

Prerequisites:

1.   At least 16 years of age.
2.   Able to read and write English.
3.   Good verbal and written communication skills.
4.   Self-motivated

This description in no way states or implies that these are the only duties/functions to be performed by the incumbent. Employees will be required to follow any other job-related instructions and to perform any other job-related duties/functions requested by their supervisor.
